

RCI Technologies "Solutions"

Bringing you the latest news from RCI Technologies and the fuel industry

RCI Technologies
"Solutions"

Issue No. 1 • January 2010

IN THIS ISSUE:

[RCI Welcomes ...](#)

[Upcoming Trade Shows](#)

[Seeking Distributors](#)

[Safely and Easily Add
Chemicals to Stored Fuel](#)

[New Portable Fuel
Transfer/Filtration Unit](#)

[Latest FRS Installations](#)

RCI Welcomes ...

• **Jim Hansen** - [J.L. Hansen Associates](#), Rotterdam Junction, N.Y. (representative - Northeast U.S.)

• **Gabriel Gutierrez** - [RCI Technologies](#), San Dimas, Calif. (sales manager)

• **Buddy Hotchkiss** - [Cortland Pump & Equipment Inc.](#), Cortland, N.Y. (distributor)

• **Christopher LaFever** - [S&W Services, Inc.](#), East Syracuse, N.Y. (distributor)

• **Kevin McKinney** - [McKinney Petroleum Equipment, Inc.](#), Mobile, Ala. (distributor)

• **Alberto Arroyo** - [Group Xpress Exports, LLC](#), Miami, Fla. (distributor - Central America)

• **Mike Allison** - [dyna-flow](#), Camano Island, Wash. (associate)

Upcoming Trade Shows

• **JAN. 29-31:**

[36th Annual East Coast Commercial Fishermen's &](#)

→ Happy New Year from RCI Technologies

Welcome to the first issue of our "Solutions" newsletter, which will bring you information on our new products, company news, technical advice and other fuel-related items of interest. If you have any questions, comments or suggestions for our newsletter, please let us know by sending an e-mail to news@rcitechnologies.com.

→ Safely and Easily Add Chemicals to Stored Fuel

Part of any stored fuel maintenance program is to have your fuel stores tested at least once a year. Your lab results may indicate a need to add biocides or other chemical additives. In the past, the only way to do this was to climb up on top of your tank or open a manhole and climb down to pour in your additives -- very messy and sometimes dangerous.

RCI Technologies now offers a safe, simple solution to this problem. Our new [Automatic Chemical Injection System](#) provides a means to safely and easily inject biocides or other chemical additives directly into the fuel stream prior to entering your fuel tank.

After checking your lab results, simply pour the required amount of chemicals into the reservoir located on top of your FRS cabinet. Open the transfer valve located inside the cabinet. Turn the system from the "Auto" mode to "On." The pump will start and inject the chemicals directly into the fuel stream. Add any additional chemicals as needed. Upon completion, close the ball valve and return the system to the "Auto" mode.

The RCI Technologies Automatic Chemical Injection System may be ordered on all of RCI's FRS units and may be retrofitted to your existing system.

RCI Technologies proudly carries [Bell Performance additives](#), which are suitable for use with the Automatic Chemical Injection System.

→ New Portable Fuel Transfer/Filtration Unit

RCI Technologies introduces its newly redesigned [Emergency Fuel Transfer and Filtration Unit \(PTFU\)](#).

The PTFU can be used to clean stored diesel fuel and transfer fuel between tanks. It is ideal for boat owners, fuel docks and stations, truck fleets and various other diesel fuel applications.

The portable unit includes an FP 700 fuel purifier, with an 8 GPM flow rate; a 12-volt, 1/5 HP motor; a 20-foot-long, 10-gauge power cord with battery clamps; detachable hoses; and a thermal protection circuit with on/off switch. And, as with all RCI products, the PTFU features RCI's

patented filterless technology and is Green Clean Institute certified. Improvements from the previous model include a more compact design and a lighter weight, making it more convenient and easier to transport, use and store.

→ Latest FRS Installations

The photos below show two of the latest installations of our Fuel Recirculating Systems (FRS), protecting the fuel stores at **Phoenix Children's Hospital** in Arizona and **Medimmune** in Frederick, Md.

Aquaculture Trade
Exposition (Ocean City,
Md.), Booth 508

• **FEB. 11-15:**

Miami International Boat
Show (Miami, Fla.), Booth
4163

• **FEB. 16-18:**

2010 WPMA National
Convention &
Convenience Store Expo
(Las Vegas, Nev.), Booth
1500

• **MARCH 16-18:**

National Facilities
Management &
Technology Conference &
Expo (Baltimore, Md.),
Booth 837

• **MARCH 19-21:**

Puerto Rico International
Boat Show (San Juan,
P.R.), Booth TBA

Seeking Distributors

Are you interested in becoming a distributor for RCI Technologies? We are always looking for representation. Call us at (800) 868-2088 or send an e-mail to info@rcitechnologies.com.
