San Dimas, California – June 21, 2007:

MAINTAIN FUEL QUALITY WITH RCI TECHNOLOGIES' FRS-660 FUEL CLEANING SYSTEMS

RCI TECHNOLOGIES IS PLEASED TO INTRODUCE A NEW MODEL IN OUR PRODUCT LINE OF FUEL CLEANING AND FUEL RECIRCULATING SYSTEMS. MADE IN THE U.S.A., THE *FRS-660* IS A FULLY AUTOMATIC PROGRAMMABLE MAINTENANCE UNIT, PACKAGED AS A PRE-ENGINEERED INTEGRATED SYSTEM, TO ACCOMMODATE VARIOUS APPLICATIONS FROM 2 GPM UP TO 150 GPM, SINGLE OR MULTIPLE TANK APPLICATIONS. UTILIZING RCI TECHNOLOGIES' UNIQUE FUEL PURIFIER TECHNOLOGY, THE FRS SYSTEM CONTAINS NO FILTERS, ELEMENTS, OR CARTRIDGES TO CLEAN OR REPLACE.

THE *FRS-660* SYSTEMS ARE DESIGNED FOR USE WITH FUEL OIL, CLASS II, OR CLASS III COMBUSTIBLE LIQUIDS HAVING A FLASH POINT OF 100°F OR HIGHER. ALL DEVICES, WIRING, AND PLUMBING ARE PROTECTED WITHIN A NEMA RATED WEATHERPROOF ENCLOSURE AND UL APPROVED MECHANICAL AND ELECTRICAL COMPONENTS. ALL SYSTEMS ARE SUITABLE FOR WALL OR PAD MOUNTING.

RECIRCULATING STORED FUEL WITH THE *FRS-660* WILL REMOVE OVER 99% OF ALL FREE WATER AND UP TO 98% OF NORMAL AND NATURAL CONTAMINATES (DOWN TO 10 MICRON), INCLUDING SLUDGE AND ALGAE. THE *FRS-660* SYSTEM WILL DRAMATICALLY EXTEND YOUR FILTERS LIFE AND IMPROVE ENGINE PERFORMANCE, AS WELL AS INCREASE COMBUSTIBILITY. SAVE TIME AND MONEY WITH LESS FILTER CHANGES.

RCI TECHNOLOGIES IS TRULY THE PERMANENT SOLUTION FOR ALL YOUR CONTAMINATED FUEL PROBLEMS. MAINTAIN OPTIMAL FUEL QUALITY WITH RCI TECHNOLOGIES FUEL CLEANING AND RECIRCULATING SYSTEMS. VISIT US AT OUR WEB SITE: www.rcitechnologies.com.
