### FILTERLESS FUEL PURIFICATION SYSTEMS

Home // RCI Advantages // Newsletters // Q&A // Testimonials // Gallery // Press & Events // Contact // Quote

Manufacturer and Distributor of **Green Certified Filterless Fuel Purification Systems** including the Universal Fuel Purifier, Portable Tank Cleaning Unit, and Automatic Fuel Recirculating System

**WHY SHOULD YOU BUY AN RCI FUEL PURIFIER?**

- The absolute best fuel purifier at removing water and dirt from fuel.
- The only fuel purifier with a water sensor port and heater attachment.
- Patented technology only RCI can deliver. In fact, even the patent office uses our product!
- Performs without the use or need of a replaceable, changeable or cleanable filter element, cartridge, or bowl.

HATZON LABORATORIES    BIL-L    IMPACT    HYPODUR    SPI    X-PROTEC

### **RCI Web Site Now Features Multiple Languages, Newsletter Archives**

SAN DIMAS, Calif. – Oct. 5, 2010 – Fuel purifier manufacturer RCI Technologies introduces two new features on its Web site at [www.rcitechnologies.com](http://www.rcitechnologies.com).

The Web site is now available in 28 additional languages. Site visitors can click on the flags at the top of the home page to instantly view the entire site in the language of their choice.

“We are excited to offer this new feature, which enables us to further our reach into our international markets, enhancing our communication and service to customers abroad,” said Communications Specialist Natalie Avalos.

In addition, the Web site now includes archives of RCI’s “Solutions” e-mail newsletter, which was rolled out in January. Site visitors can read current and past issues of the RCI newsletter as well as sign up for the mailing list.

For more information, call (800) 868-2088 or visit [www.rcitechnologies.com](http://www.rcitechnologies.com).

[About RCI Technologies](#)

RCI Technologies, founded in 1994, offers a complete line of diesel fuel purification products, which include the Universal Fuel Purifier™, the Portable Tank Cleaning Unit™ and the FRS 660 Automatic Fuel Recirculating System™. RCI's products are suitable for marine, industrial, trucking and bus applications, and they are used at pumping stations and fuel docks, by hospitals and various government agencies, and in the construction and agricultural industries.

RCI's fuel purifiers, which bear Green Clean Institute certification, utilize RCI's patented fuel purification technology, using no filters or moving parts. By removing 99.9 percent of water and up to 98 percent of dust, dirt and other natural contaminants found in all diesel fuel, RCI's products promote optimum fuel system efficiency and fuel economy, reduce engine down time and extend engine life.

For more information on RCI's products, visit [www.rcitechnologies.com](http://www.rcitechnologies.com) or call (800) 868-2088.
